

Friends and Family Test January 2019

Thank you to those of you who completed the Friends and Family Survey for us in January. We are delighted with the feedback we received. Out of the 30 patients that completed the survey, 26 (86%) were extremely likely to recommend us to family and friends. 3 (10%) were likely to recommend us to family and friends and 1 (4%) were neither likely nor unlikely to recommend us to family and friends.

Remember you can complete the survey as often as you like as your comments are a reflection on 'today's' experience.
