

Fair Processing Notice (Privacy Notice)

Your Personal Information – what you need to know

Your information, what you need to know

This privacy notice explains why we collect information about you, how that information will be used, how we keep it safe and confidential and what your rights are in relation to this.

Why we collect information about you

Health care professionals who provide you with care are required by law to maintain records about your health and any treatment or care you have received. These records help to provide you with the best possible healthcare and help us to protect your safety.

We collect and hold data for the purpose of providing healthcare services to our patients and running our organisation which includes monitoring the quality of care that we provide. In carrying out this role we will collect information about you which helps us respond to your queries or secure specialist services. We will keep your information in written form and/or in digital form.

Our Commitment to Data Privacy and Confidentiality Issues

As a GP practice, all of our GPs, staff and associated practitioners are committed to protecting your privacy and will only process data in accordance with the Data Protection Legislation. This includes the General Data Protection Regulation (EU) 2016/679 (GDPR), the Data Protection Act (DPA) 2018, the Law Enforcement Directive (Directive (EU) 2016/680) (LED) and any applicable national laws implementing them as amended from time to time. The legislation requires us to process personal data only if there is a legitimate basis for doing so and that any processing must be fair and lawful.

In addition, consideration will also be given to all applicable law concerning privacy, confidentiality, the processing and sharing of personal data including the Human Rights Act 1998, the Health and Social Care Act 2012 as amended by the Health and Social Care (Safety and Quality) Act 2015, the common law duty of confidentiality and the Privacy and Electronic Communications (EC Directive) Regulations.

Data we collect about you

Records which this GP Practice will hold or share about you will include the following:

- **Personal Data** – means any information relating to an identified or identifiable natural person ('data subject'); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

- Special Categories of Personal Data – this term describes personal data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, and the processing of genetic data, biometric data for the purpose of uniquely identifying a natural person, data concerning health or data concerning a natural person’s sex life or sexual orientation.
- Confidential Patient Information – this term describes information or data relating to their health and other matters disclosed to another (e.g. patient to clinician) in circumstances where it is reasonable to expect that the information will be held in confidence, including both information ‘given in confidence’ and ‘that which is owed a duty of confidence’, as described in the Confidentiality: NHS code of Practice: Department of Health guidance on confidentiality 2003.
- Pseudonymised - The process of distinguishing individuals in a dataset by using a unique identifier which does not reveal their ‘real world’ identity.
- Anonymised – Data in a form that does not identify individuals and where identification through its combination with other data is not likely to take place.
- Aggregated - Statistical data about several individuals that has been combined to show general trends or values without identifying individuals within the data.

How we use your information

Improvements in information technology are also making it possible for us to share data with other healthcare organisations for the purpose of providing you, your family and your community with better care; for example, it is possible for healthcare professionals in other services to access your record with your permission when the practice is closed. This is explained further in the Local Information Sharing at Appendix A.

Whenever you use a health or care service, such as attending Accident & Emergency or using Community Care services, important information about you is collected in a patient record for that service. Collecting this information helps to ensure you get the best possible care and treatment. The information collected about you when you use these services can also be used and provided to other organisations for purposes beyond your individual care, for instance to help with:

- improving the quality and standards of care provided
- research into the development of new treatments
- preventing illness and diseases
- monitoring safety
- planning services.

This may only take place when there is a clear legal basis to use this information. All these uses help to provide better health and care for you, your family and future generations. Confidential patient information about your health and care is only used like this where allowed by law.

Most of the time, anonymised data is used for research and planning so that you cannot be identified, in which case your confidential patient information isn't needed.

A full list of details including the legal basis, any Data Processor involvement and the purposes for processing information can be found in Appendix A.

How long do we hold information for?

All records held by the Practice will be kept for the duration specified by national guidance from NHS Digital: [Health and Social Care Records Code of Practice](#). Once information that we hold has been identified for destruction it will be disposed of in the most appropriate way for the type of information it is. Personal confidential and commercially confidential information will be disposed of by approved and secure confidential waste procedures. We keep a record of retention schedules within our information asset registers, in line with the Records Management Code of Practice for Health and Social Care 2016.

Individuals Rights under GDPR

Under GDPR 2016 the law provides the following rights for individuals. The NHS uphold these rights in a number of ways:

1. The right to be informed
2. The right of access
3. The right to rectification
4. The right to erasure (not an absolute right) only applies in certain circumstances
5. The right to restrict processing
6. The right to data portability
7. The right to object
8. Rights in relation to automated decision making and profiling.

Your right to opt out of data sharing and processing

The NHS Constitution states 'You have a right to request that your personal and confidential information is not used beyond your own care and treatment and to have your objections considered'. For further information please visit: [The NHS Constitution](#)

Type 1 opt-out

This is an objection that prevents an individual's personal confidential information from being shared outside of their general practice except when it is being used for the purposes of direct care, or in particular circumstances required by law, such as a public health emergency like an outbreak of a pandemic disease. If you wish to apply a Type 1 opt-out to their record they should make their wishes known to the Practice Manager.

National data opt-out

The national data opt-out was introduced on 25 May 2018, enabling patients to opt-out from the use of their data for research or planning purposes, in line with the recommendations of the National Data Guardian in her Review of Data Security, Consent and Opt-Outs.

By 2020, all health and care organisations are required to apply national data opt-outs where confidential patient information is used for research and planning purposes. NHS Digital has been applying national data opt-outs since 25 May 2018. Public Health England has been applying national data opt-outs since September 2018.

The national data opt-out replaces the previous 'type 2' opt-out, which required NHS Digital not to share a patient's confidential patient information for purposes beyond their individual care. Any patient that had a type 2 opt-out recorded on or before 11 October 2018 has had it automatically converted to a national data opt-out. Those aged 13 or over were sent a letter giving them more information and a leaflet explaining the national data opt-out. For more information, go to [National data opt out programme](#)

To find out more or to register your choice to opt out, please visit www.nhs.uk/your-nhs-data-matters.

On this web page you will:

- See what is meant by confidential patient information
- Find examples of when confidential patient information is used for individual care and examples of when it is used for purposes beyond individual care
- Find out more about the benefits of sharing data
- Understand more about who uses the data
- Find out how your data is protected
- Be able to access the system to view, set or change your opt-out setting
- Find the contact telephone number if you want to know any more or to set/change your opt-out by phone
- See the situations where the opt-out will not apply.

Right of Access to your information (Subject Access Request)

Under Data Protection Legislation everybody has the right have access to, or request a copy of, information we hold that can identify you, this includes your medical record, there are some safeguards regarding what you will have access and you may find information has been redacted or removed for the following reasons:

- Does not cause harm to the patient
- That legal confidentiality obligations for the non-disclosure of third-party information are adhered to.

You do not need to give a reason to see your data and requests can be made verbally or in writing, although we may ask you to complete a form in order that we can ensure that you have the correct information you require.

Where multiple copies of the same information is requested the surgery may charge a reasonable fee for the extra copies.

You will need to provide proof of identity to receive this information.

If you would like to access your GP record online click here:

<https://www.seasidemedicalcentre.co.uk/>

Change of Detail

It is important that you tell the surgery if any of your contact details such as your name or address have changed, especially if any of your other contacts details are incorrect. It is important that we are made aware of any changes **immediately** in order that no information is shared in error.

Mobile telephone number

If you provide us with your mobile phone number, we may use this to send you text reminders about your appointments or other health screening information. Please let us know if you do not wish to receive text reminders on your mobile.

Email address

Where you have provided us with your email address, with your consent we will use this to send you information relating to your health and the services we provide. If you do not wish to receive communications by email please let us know.

Notification

Data Protection Legislation requires organisations to register a notification with the Information Commissioner to describe the purposes for which they process personal and sensitive information.

We are registered as a Data Controller and our registration can be viewed online in the public register at: [http://ico.org.uk/what we cover/register of data controllers](http://ico.org.uk/what-we-cover/register-of-data-controllers)

Any changes to this notice will be published on our website and in a prominent area at the Practice.

Data Protection Officer

Should you have any data protection questions or concerns, please contact our Data Protection Officer at: trudy.slade@nhs.net

What is the right to know?

The Freedom of Information Act 2000 (FOIA) gives people a general right of access to information held by or on behalf of public authorities, promoting a culture of openness and accountability across the public sector. You can request any non-personal information that the GP Practice holds that does not fall under an exemption. You may not ask for information that is covered by the Data Protection Legislation under FOIA. However you can request this under a right of access request – see section above ‘Access to your information’.

Right to Complain

If you have concerns or are unhappy about any of our services, please contact the Practice Manager.

The NHS Care Record Guarantee

The NHS Care Record Guarantee for England sets out the rules that govern how patient information is used in the NHS, what control the patient can have over this, the rights individuals have to request copies of their data and how data is protected under Data Protection Legislation. <http://systems.digital.nhs.uk/infogov/links/nhscrg.pdf>

The NHS Constitution

The NHS Constitution establishes the principles and values of the NHS in England. It sets out the rights patients, the public and staff are entitled to. These rights cover how patients access health services, the quality of care you'll receive, the treatments and programs available to you, confidentiality, information and your right to complain if things go wrong. <https://www.gov.uk/government/publications/the-nhs-constitution-for-england>

Appendix A – The Practice will share your information with these organisations where there is a legal basis to do so.

Activity	Rationale
CCG	<p>Purpose – Anonymous data is used by the CCG for planning and performance as directed in the practices contract.</p> <p>Legal Basis – Contractual</p> <p>Processor – Eastbourne, Hailsham and Seaford CCG</p>
Summary Care Record	<p>Purpose – During the Covid19 pandemic practices have been told to share details of patients personal confidential and special category data onto the summary care record. The NHS in England uses a national electronic record called the Summary Care Record (SCR) to support patient care. It contains key information from your GP record. Your SCR provides authorised healthcare staff with faster, secure access to essential information about you in an emergency or when you need unplanned care, where such information would otherwise be unavailable.</p> <p>Legal Basis – Direct Care</p> <p>The relevant COPI notice states that its purpose: "...is to require organisation to process confidential patient information for the purposes set out in Regulation 3(1) of COPI to support the Secretary of State's response to Covid-a9 (Covid-19 Purpose). "Processing" for these purposes is defined in Regulation 3(2) and</p>

	<p>includes dissemination of confidential patient information to persons and organisations permitted to process confidential patient information under Regulation 3(3) of COPI.”</p> <p>Full details of the Summary Care Record supplementary privacy notice can be found here.</p> <p>Patients have the right to opt out of having their information shared with the SCR by completion of the form which can be downloaded here and returned to the practice. Please note that by opting out of having your information shared with the Summary Care Record could result in a delay in care that may be required in an emergency.</p> <p>Processor – NHS England and NHS Digital via GP connect</p>
Research	<p>Purpose – We may share personal confidential or anonymous information with research companies. Where you have opted out of having your identifiable information shared for this purpose your information will be removed.</p> <p>Legal Basis – consent is required to share confidential patient information for research, unless there is have support under the Health Service (Control of Patient Information Regulations) 2002 (‘section 251 support’) applying via the Confidentiality Advisory Group in England and Wales</p> <p>Processor – NHS National Institute for Health Research (NIHR) Clinical Research Network (https://www.nihr.ac.uk/)</p>
Individual Funding Requests	<p>Purpose – We may need to process your personal information where we are required to fund specific treatment for you for a particular condition that is not already covered in our contracts.</p> <p>Legal Basis - The clinical professional who first identifies that you may need the treatment will explain to you the information that is needed to be collected and processed in order to assess your needs and commission your care; they will gain your explicit consent to share this. You have the right to withdraw your consent at any time.</p> <p>Data processor – Eastbourne, Hailsham and Seaford CCG</p>

<p>Risk Stratification – Preventative Care</p>	<p>Plus Social Services/other care teams as necessary.</p> <p>Purpose - ‘Risk stratification for case finding’ is a process for identifying and managing patients who have or may be at-risk of health conditions (such as diabetes) or who are most likely to need healthcare services (such as people with frailty). Risk stratification tools used in the NHS help determine a person’s risk of suffering a particular condition and enable us to focus on preventing ill health before it develops.</p> <p>Information about you is collected from a number of sources including NHS Trusts, GP Federations and your GP Practice. A risk score is then arrived at through an analysis of your de-identified information. This can help us identify and offer you additional services to improve your health.</p> <p>If you do not wish information about you to be included in any risk stratification programmes, please let us know. We can add a code to your records that will stop your information from being used for this purpose. Please be aware that this may limit the ability of healthcare professionals to identify if you have or are at risk of developing certain serious health conditions.</p> <p>Type of Data – Identifiable/Pseudonymised/Anonymised/Aggregate Data</p> <p>Legal Basis GDPR Art. 6(1) (e) and Art.9 (2) (h). The use of identifiable data by CCGs and GPs for risk stratification has been approved by the Secretary of State, through the Confidentiality Advisory Group of the Health Research Authority (approval reference (CAG 7-04)(a)/2013)) and this approval has been extended to the end of September 2020 NHS England Risk Stratification which gives us a statutory legal basis under Section 251 of the NHS Act 2006 to process data for risk stratification</p>

	<p>purposes which sets aside the duty of confidentiality. We are committed to conducting risk stratification effectively, in ways that are consistent with the laws that protect your confidentiality.</p> <p>Processors - The practice uses carefully selected third party service providers. When we use a third party service provider to process data on our behalf then we will always have an appropriate agreement in place to ensure that they keep the data secure, that they do not use or share information other than in accordance with our instructions and that they are operating appropriately. Examples of functions that may be carried out by third parties includes:</p> <ul style="list-style-type: none"> • Companies that provide IT services & support, including our core clinical systems; systems which manage patient facing services (such as our website and service accessible through the same); data hosting service providers; systems which facilitate appointment bookings or electronic prescription services; document management services etc. • Delivery services (for example if we were to arrange for delivery of any medicines to you). • Payment providers (if for example you were paying for a prescription or a service such as travel vaccinations). <p>Further details regarding specific third party processors can be supplied on request.</p>
<p>Public Health Screening programmes (identifiable) Notifiable disease information (identifiable) Smoking cessation (anonymous) Sexual health (anonymous)</p>	<p>Purpose – Personal identifiable and anonymous data is shared. The NHS provides national screening programmes so that certain diseases can be detected at an early stage. These currently apply to bowel cancer, breast cancer, aortic aneurysms and diabetic retinal screening service. The law allows us to share your contact information with Public Health England so that you can be invited to the relevant screening programme.</p> <p>More information can be found at: https://www.gov.uk/topic/population-screeningprogrammes or speak to the practice</p> <p>Legal Basis - Article 6(1)(e); “necessary... in the exercise of official authority vested in the controller’ And Article 9(2)(h) as stated below</p> <p>Data Processors – Public Health, East Sussex County Council</p>

Direct Care	<p>Purpose – Personal information is shared with other secondary care providers in order to provide you with direct care services. This could be hospitals or community providers for a range of services, including treatment, operations, physio, and community nursing, ambulance service.</p> <p>Legal Basis - The processing of personal confidential and special categories of data in the delivery of direct care by this surgery and other providers of direct care elsewhere is supported under the following Article 6(1)(e); “necessary... in the exercise of official authority vested in the controller’ And Article 9(2)(h) as stated below</p> <p>Processors – The practice uses carefully selected third party service providers. When we use a third party service provider to process data on our behalf then we will always have an appropriate agreement in place to ensure that they keep the data secure, that they do not use or share information other than in accordance with our instructions and that they are operating appropriately. <p>Payments, Invoice validation</p>	<p>Purpose - Contract holding GPs in the UK receive payments from their respective governments on a tiered basis. Most of the income is derived from baseline capitation payments made according to the number of patients registered with the practice on quarterly payment days. These amount paid per patient per quarter varies according to the age, sex and other demographic details for each patient. There are also graduated payments made according to the practice’s achievement of certain agreed national quality targets known as the Quality and Outcomes Framework (QOF), for instance the proportion of diabetic patients who have had an annual review. Practices can also receive payments for participating in agreed national or local enhanced services, for instance opening early in the morning or late at night or at the weekends. Practices can also receive payments for certain national initiatives such as immunisation programs and practices may also receive incomes relating to a variety of non patient related elements such as premises. Finally there are short term initiatives and projects that practices can take part in. Practices or GPs may also receive income for participating in the education of medical students, junior doctors and GPs themselves as well as research. In order to make patient based payments basic and relevant necessary data about you needs to be sent to the various payment services. The release of this data is required by English laws.</p> <p>Legal Basis - Article 6(1)(c) “processing is necessary for compliance with a legal obligation to which the controller is subject.” And Article 9(2)(h) ‘as stated below</p> <p>Data Processors – NHS England, CCG, Public Health</p>
