

Friends and Family Test – October 2018

Thank you to those of you who completed the Friends and Family Survey for us in October. We are delighted with the feedback we received. Out of the 22 patients that completed the survey, 19 (86%) were extremely likely to recommend us to their family and friends. 2 patients (9%) said they were likely to recommend us to their family and friends. 1 patient (5%) said they would neither likely nor unlikely to recommend us to family and friends.

Remember you can complete the survey as often as you like as your comments are a reflection on 'today's' experience.
